### State Plan 4.17 Liens and Adjustments or Recoveries

#### ATTACHMENT 4.17-A -

Page 1

The State uses the following process for determining that an institutionalized individual cannot reasonably be expected to be discharged from the medical institution and return home:

> The department has determined after notice and opportunity for hearing (Notice of Intent to File Medicaid TEFRA Lien - see attached Exhibit 1) that there is no reasonable expectation that the person can be discharged from the facility within one-hundred twenty days and return home. This may be substantiated by one of the following evidences:

- Applicant/beneficiary has been in the institution for longer than **(A)** one-hundred twenty days.
- A physician states in writing that the applicant/beneficiary **(B)** cannot be expected to be discharged evidenced by one of the following forms:
  - Form DA-124B, Department of Social Services -1) Missouri Division of Aging - Initial Assessment - Medical Summary - Section H - Physicians Evaluation and Recommendation. (See attached Exhibit 2);
  - Form DA-124C, Department of Social Services -Division of Aging - Nursing Facility Pre-Admission Screening/Resident Review for Mental Illness/Mental Retardation or Related Condition - Section B -Exemption Categories. (See attached Exhibit 3)
- An RN Assessment Coordinator states in writing that the **(C)** applicant/beneficiary cannot be expected to be discharged evidenced by the "Minimum Data Set (MDS) - Version 2.0 for Nursing Home Resident Assessment and Care Screening - Full Assessment Form - Section Q - Discharge Potential". (See attached Exhibit 4)
- The following criteria are used for establishing that a permanently institutionalized 2. individual's son or daughter provided care as specified under regulations at 42 CFR §433.36(f):

Submission by a son or daughter of an affidavit swearing to residing in the home for at least two years immediately before the date of the individual's admission to the institution, residing there on a continuous basis since that time, and providing care which permitted the individual to reside at home rather than in an institution. (See attached Exhibit 5)

State Plan TN# 96-11 Effective Date April 1, 1996
Supersedes TN# New Approval Date AUG 0 1 1996

- 3. The State defines the terms below as follows:
  - estate

Estate is defined under §472.010(11) - "Estate" means the real and personal property of the decedent or ward, as from time to time changed in form by sale, reinvestment or otherwise, and augmented by any accretions and additions thereto and substitutions therefor, and diminished by any decreases and distributions therefrom.

o individual's home

The principal place of residence of the individual. For town or city property, lots on which there is no dwelling and which adjoin the residence are considered part of the home (regardless of the number of lots so long as they are in the same city block). For rural property, the acreage on which the home is located plus any adjoining acreage will be considered part of the home.

equity interest in the home

Co-ownership of the home which is not the result of a transfer of property for less than the fair market value within thirty-six months prior to institutionalization.

o residing in the home for at least one or two years on a continuous basis, and

Defined as physically residing in the home for at least one or two years on a continuous basis, with the exception of convalescent stays of a duration less than ninety days for each occurrence.

o lawfully residing.

Residing in the home with the permission of the owner or, if under guardianship, the owner's legal guardian.

4. The State defines undue hardship as follows:

Claims are barred by statute, §473.398, if determined that 1) the cost of collection will exceed the amount of the State's claim; or 2) the collection of the claim will adversely affect the need of the surviving spouse or dependents of the decedent to reasonable care and support from the estate.

Supersedes TN# New Approval Date Aug 0 1 1996

5. The following standards and procedures are used by the State for waiving estate recoveries when recovery would cause an undue hardship, and when recovery is not cost-effective:

Missouri's Medicaid estate recovery program is authorized by State law in the probate code. The State must pursue its claims against Medicaid decedent estates following the processes established by statute. Claims are barred by statute, §473.398, if determined that 1) the cost of collection will exceed the amount of the State's claim; or 2) the collection of the claim will adversely affect the need of the surviving spouse or dependents of the decedent to reasonable care and support from the estate.

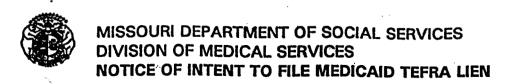

The estate's attorney or other interested parties may raise any disputes with the State's attorney over the State's claim filed in probate. If the dispute cannot be resolved, the probate judge will render a ruling in a scheduled probate hearing. At that time, the court can decide if the State's claim is barred by reason of hardship.

6. The State defines cost-effective as follows (include methodology/thresholds used to determine cost-effectiveness):

The State voluntarily defines cost-effectiveness as: The cost of the collection will exceed the amount of the claim. However, if a dispute exists, the estate's attorney or other interested parties may raise any disputes, including cost-effectiveness, with the State's attorney over the State's claim filed in probate. If the dispute cannot be resolved, the probate judge will render a ruling in a scheduled probate hearing.

7. The State uses the following collection procedures (include specific elements contained in the advance notice requirement, the method for applying for a waiver, hearing and appeals procedures, and time frames involved):

The estate's attorney or other interested parties may raise any disputes with the State's attorney over the State's claim filed in probate. If the dispute cannot be resolved, the probate judge will render a ruling in a scheduled probate hearing.

RECIPIENT/REPRESENTATIVE'S NAME RECIPIENT/REPRESENTATIVE'S ADDRESS ADDRESS1 CITY STATE ZIP

RE:

Recipient Name

DCN#

This is to notify you that based on approval of your application for medical assistance, your home and other real property(ies) are subject to a TEFRA lien. A TEFRA lien is a claim on the property of a person as security for payment of a just debt authorized by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA). The lien will be for the debt due the state for medical assistance paid or to be paid on your behalf.

A lien may be placed on a person's home and other real property when all of the following conditions are met:

- When the person lives or is going to live in a long term care facility.
- When the person owns a home or other real property.
- When there is no reasonable expectation that the person will be discharged from the long term care facility and resume living in the home within one-hundred twenty days of admission. You have the right to appeal the decision that you are not expected to return home within one-hundred twenty days of admission. The procedures for requesting a hearing are on the back of this letter.
- When the person does not have a spouse, child under twenty-one years of age, or child who is blind or permanently disabled living in the home.
- When the person does not have a brother or sister who has an equity interest in the property and who was residing in the home at least one year immediately before the date of the person's admission to a long term care facility.
- When the person does not have a son or daughter who has been residing in the home on a continuous basis for at least two years immediately before the date of admission, providing care which permitted the person to reside at home rather than in an institution.

If you do not meet all of these conditions, please contact the Division of Medical Services, TEFRA Lien Recoveries, P.O. Box 6500, Jefferson City, MO 65102-6500, (573) 751-2005.

A lien on property does not change the ownership of the property. It only represents a debt that must be satisfied whenever the property is sold, transferred, or leased. Missouri Medicaid does not require a medical assistance recipient to sell his/her home. The purpose of the TEFRA lien is to secure property so that medical costs can be recovered by the State when the property is sold, transferred, or leased.

The TEFRA lien will be released in the event the person is discharged from the long term care facility and resumes living in the home.

Please note that if the applicant/recipient objects to the placement of the TEFRA lien, the applicant/recipient may made ineligible for medical assistance.

Supersedes TN# \_New\_

Effective Date April 1, 1996
Approval Date AUG 0 1 1996

#### RIGHT TO APPEAL

If you are dissatisfied with any action or failure to act with regard to your medical assistance, you have the right to appeal. Your rights and procedures for hearing are explained in the Missouri Division of Family Service's pamphlet "Important Information About Your Hearing Rights" (IM-4).

Before you request a hearing, request a conference with the Medicaid TEFRA Lien Recovery worker and his/her supervisor to discuss the proposed action. If you still disagree with the decision, request a hearing through your local DFS caseworker....

- The hearing is held locally either by speaker-telephone or in-person without cost to you and the setting is informal.
- You may represent yourself or have a friend or relative do so.
- You will not need a lawyer, but may have legal representation if you desire it. If you do not have
  an attorney or cannot afford one, and live in an area served by legal aid or legal services office,
  you may be eligible for these services.

#### FOLLOW THESE STEPS:

- REQUEST A HEARING THROUGH YOUR LOCAL DFS CASEWORKER
- PREPARE FOR THE HEARING BY GATHERING INFORMATION ABOUT YOUR CASE
- ATTEND THE HEARING

Detailed instructions and information can be found in Missouri Division of Family Service's pamphlet "Important Information About your Hearings Rights" (IM-4).
